

Full Cut Off Wall Pack

Installation Manual

Cautions:

1. Can not use the electric generator to test the LED lamp.
2. Please abide by related country, regional and local law and regulations when install this fixture.
3. Please turn off the power before installation or maintenance.
4. Proper earth grounding is required to ensure safety.

Notice:

1. To avoid possibility of electrical shock or fire, the installation personnel must have professional electric knowledge.
2. Please wear gloves to avoid injury before installation.
3. If any smoke or spark of the wire happened, please turn off the power immediately and notify relevant personnel.

Installation

1. Use Allen driver to loosen the 2 pcs screws.
(Sometimes the screws fixed too tight, then use your hand to press the fixture, that will be easier to loosen the screws)

2. Open the fixtures and take out the heat sinker (fixture main part) from the back housing.

3. Use screws to install and fix the back housing on the wall. Keep the back housing fixed tight on the wall.

4. Thrust the heat sinker (fixture main part) holes into the back housing (picture shown on the left), and then make wire connections to main supply. Consult an electrician and install according to national, local, and state codes.

5. Close the fixture after wiring to the main supply.
Fix the screws to finish the installation.
